## CAREER FOCUS

With a Bachelors in Vocation with specialization in Creative Coding from the prestigious Srishti School of Design, seeking career options as Web Design & Development professional.

## SUMMARY

Artistic bent of mind with a penchant for creative pursuits with a track record of winning in several creditable contests at school. Chosen to pursue an Undergraduate program from a premier Institute offering specialization in Art, Design & Technology with a good CGPA. Demonstration of acumen at web design & development completing prototype projects at reputed IT organizations. Adept at quick learning and adopting new technology/software for design and development. Freelance artist supporting varied artistic engagements. Strong spirit of team camaraderie.

## SCHOLASTIC BACKGROUND

A three-year Bachelor of Vocation (B.voc) program in Creative Coding from Srishti Institute of Art, Design and Technology, 2019. Overall CGPA of 6.89 with 68.9%.

Key Topics – Introduction for Programming, Coding for the Web, Introduction to App Programming and Computers and the Physical world.

12<sup>th</sup> Standard, Parikrma Humanities Foundation, 2016, with 64.5%.

10<sup>th</sup> Standard, Parikrma Humanities Foundation, 2014, with 75.5%.

## INTERNSHIP AND PROJECT ASSIGNMENTS

- Understood the importance of online education or virtual institutions in the current scenario at ADOBE. Using XAPI, a software tool, understood the manner in which data is used to identify key factors and to solve the same with the ultimate goal of making online learning organized/structured.
- Got to grips about the role that data visualization plays in emerging with new findings and patterns. This in turn helps streamlining online education. Learnt all about Data Visualization from scratch.
- Completed two internship projects at two different Companies for a month each. Learnt new IT tools like Bootstrap, jQuery & Advanced Cascading Styling Sheet (CSS) applying them to prototype projects.
- Designed and automated a prototype of a commercial aquaponics system based on sustainable farming methodology.

## IT PROFICIENCY

Proficient with Front End Web Design, Material Craft & Art, IOT (Arduino & Sensors), CAD (3D Modeling).

Tools: JavaScript, HTML & CSS, Photoshop, Illustrator, Dream Weaver, Fusion 360 and Arduino.

Completed Government soft skill program.

## EXTRA CURRICULAR PURSUITS

Taekwondo and Art in school. Participated in Shiamak Dance School during college.

Interests: Photography, Adventure/Travelling, Art, Dance and Farming.

## HIGHLIGHTS

Won at Camlin art competition at school & regional levels.

Ekart/Flipkart art competition during Pre-University.

Face-painting award at inter-college cultural festival.

Tweak-won-do competition at interschool level.

Name: Robert,  
Designation: creative coder,  
College: Srishti Institute of Art, Design and Technology.

Dear Mr. /Ms.

I consider myself fortunate for being handpicked to study at the NGO, Parikrma Humanities Foundation right from the age of 7 years. Through their 360 degree support, I got quality education, with the freedom and support to follow my dreams and passion.

Being endowed with artistic talent as a child, I participated and excelled at painting, graffiti work, portraits, stitching aesthetic garlands and more. I was chosen at school to do art work that adorn the school walls besides making creative props for annual school day celebrations.

With my keen interest in arts, I also helped with dance choreography for Parikrma kids. The happiest moment was when my dance choreography was declared and awarded for "Best Display". Personally I pursue the freestyle dancing.

Recognizing my artistic tendency, Parikrma nominated me to do a three year Bachelor of Vocation course in Creative Coding at the renowned Srishti School of Art, Design and Technology. I passed out successfully in August 2019 with a CGPA of 6.89.

With a strong flair for using technology, I endeavored to create my own website and portfolio & hosted it on GITHUB in just three weeks that was considered laudable. Open to learning new technology, I have made efforts to learn Java Script on my own through an online course. I also did some freelance Photoshop work since the time I graduated. Besides, I have to my credit several other IT tools that I am abreast with!

I am extremely keen on getting opportunities that will exploit my artistic talent while applying the same through technology/automation. I would be keen to contribute as a 'Web Design & Development' professional. In this context, I enclose my resume for your perusal.

Thank you for your time and effort in reviewing my qualifications and look forward to hearing from you at the earliest.

Regards,

**Robert Hitler**

Enclosure
